OPEN. TO.
**FEATURES TO MAKE YOUR DOOR
COME TO LIFE.**

Flatfix lever handles and elegant twin hinges:
A SUCCESSFUL COMBINATION.

THE INGENUITY OF SIMPLICITY.

FLATFIX HANDLES

“Less is more” – our Flatfix handles underline this motto beautifully. We have taken the trend towards reduction to extremes: the wafer thin, 0.8 mm stainless steel rosette lies virtually flush with the door leaf – and that on both sides.

- Elegantly smooth appearance, a **highlight not only for flush-fitting doors**
- **Unique to the market**
- Extremely **scratch-proof and durable**
- With round or rectangular-rounded **stainless steel rosettes** or **matt black rectangular-rounded rosettes**
- Design version:
 - keyless
 - pin lock (discreetly integrated in the rosette)
 - with key (ward lock or profile cylinder key rosette)
- **A design highlight for the same price as a standard version**

THE RANGE OF OPENING.

DESIGNS AVAILABLE

As unlockable handle

Handle with PIN lock on the inside (for bathroom, bedroom, WC, etc.) with integrated emergency release

Handle with ward lock key rosette

Handle with profile cylinder key rosette*

The flat button is combinable on the other side with a selection of PLANOFIX handles and is supplied as a 2-mm-thick PLANOFIX rosette

Fire protection: only possible with ÖNORM locks, only the 2-mm-thick PLANOFIX rosette is possible here

PIN LOCK FOR FLATFIX HANDLES

The elegant, reduced version of the pin lock is not only **unique** on the market, but also makes this type of locking interesting for other rooms apart from the bathroom and WC, which you would prefer **to lock from one side**. Positioned above the handle, it's impressive thanks to the simple **one-handed operation**.

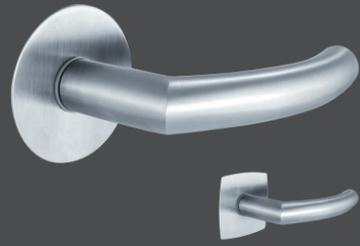

- Integrated locking system for interior doors **without a classic key**
- Pin lock optional for opening or closing side
- Pin is extremely easy to operate using just your finger
- **Most reduced locking system on the market**
- **Child-resistant**, easy to open – emergency opening function outside, beautifully shaped and integrated flush into rosette

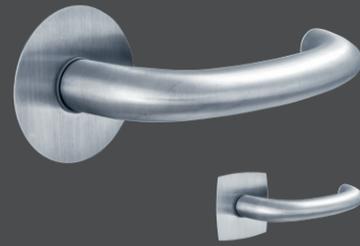

Child-resistant, but unobtrusive: Simply open the door on the outside using the emergency opening function.

Houston FLATFIX

THE SMOOTHEST CLOSING.

DANA MAGNETIC LOCK

Available with especially smooth closing – with the simple elegance of FLATFIX handles.

The lock latch remains retracted when opened and only when closing it does it come forward automatically thanks to the integrated magnets. Discover the gentlest way to close doors.

- Modern, smooth closing
- Standard on flush version
- More elegant appearance with rebated doors - optional
- More discreet strike plate
- No wear on the strike plate - wear-free
- Lock forend and strike plate in stainless steel
- Not possible to extend latch by mistake
- Easy to clean

Conventional lock for rebated doors

Magnetic latch lock for rebated doors

TREND COLOUR BLACK

- Design highlight
- Easy-to-clean surface

Consistent colour design in black matt for all door fittings:

- FLATFIX handles
- Push handle
- Recessed handle
- Sliding door systems
- Design hinges
